

League Championship Coordinator

Championship meets are a major focus of the League and many people willingly provide information, work, and assistance to the host pools. This new role would formalize the process by providing a focal person to provide information, experiences, and arbitration. This would help improve Championship events and add consistency across the League. This person would also work with the Communication Director to document as much as possible and share the information through our web-site. Kate Emerson has offered to initially fill this role given her experience with organizing the Girl's Pre-lims at Edgebrook.
